

## **COLLOIDAL SILVER: A BRIEF INTRODUCTION**

Colloidal Silver is a natural mineral supplement commonly known to be used to assist in boosting the immune system and can be known to help with many other ailments. It has been known as a natural antibiotic to help with bacteria, viruses, parasites, and fungi. Colloidal Silver has a long history for usage in wellness remedies for hundreds of years and there are many articles to access over the internet in support of its usage.

The FDA does not allow the pet industry to make any healing or health claims for any natural supplements for pets. Therefore, we cannot make any claims or statements relating to its healing properties. We are not health professionals and do not claim that it will treat or cure any kind of ailments or diseases etc, as only registered physicians can prescribe drugs that can claim healing. This information is provided for educational purposes only and we encourage you to do your own research and always seek advice from a medical practitioner. The benefits can vary from one person to another and we take no liability for your use.

We can say however, there have been many known cases where people believe they have had amazing results using Colloidal Silver for a long list of ailments for themselves and their pets. The smaller the ppm the better as it can be more easily absorbed with smaller particles. It is non-toxic, has no side effects (when used appropriately) and has no reaction when used with other medications. It does not harm the good bacteria and can be known to aid with digestion, the regeneration of cells and tissues and help prevent colds and flu.

It has been reported to be used with healing burns and skin infections, wounds and abscesses, removing plaque on teeth, boosting immunity, sore throat, colds , flu, oozing sores, cystitis, diarrhea, eye and ear infections, some types of tumours, reducing ulcers, cancers, UTI, hotspots, ringworm, feline herpes, candida, toe nail fungus, yeast infections, allergies, diabetes, shingles, chronic fatigue, warts, acne, parvo and more. It can be taken internally or externally. It can be also used in a spray bottle or with a dropper.

Colloidal Silver can also be handy in the garden and has been known to protect against bacterial, fungal, and viral attacks on plants. Simply spray diluted Colloidal Silver on the leaves and add to the soil.
